

Quality, Health, Safety and Environment Policy

Blue Horizon Services is a Rutledge Group of companies & strongly believes that Quality, Health, Safety and Environmental protection are of utmost importance to the long-term business success of the Company.

We are in the business of independent Quality Management, Quality Control, Inspection, Expediting, Certification, and Technical Manpower Services and committed to provide our services to exacting international standards, legal laws and focusing on reaching the highest levels of customer satisfaction.

We are committed to the effective operations of the Integrated Management System, continual improvement and importance on the Quality, Integrity, independence and Reliability of the company, as well as the compliance to both legal and customer-based requirements with the commitment and active participation of Top management and all staff.

Our ability to continually offer services that win our customer's confidence is key for us to remain as a preferred service provider to the oil and gas industry. Hence, the commitment to this policy is essential to add value for all our stakeholders.

We shall pursue the policy of quality in all operations with no harm to people and environment.

At BHS we act to:

- Inculcate a safety outlook and to ensure zero accidents in our workplace.
- Have a systematic approach to QHSE management to ensure compliance with the legislation applicable to the country of operations as well as any other stipulated requirements as demanded by the scope of work provided.
- Ensure the health and safety of employees, Clients and interested parties that fall under the organization's duty of care through proper planning and communication. This includes regular review and mitigation of associated risks and hazards.
- Pay attention to customer feedback and complaints and revise the system to ensure customer satisfaction in our operations & serve with integrity and ensure continuous customer
- Set objectives, measure the results and continual improvement by effective monitoring and regular audits by competent internal auditors
